

Super Centurion® Fire Hydrants Obtain CE Mark

UL International in the United Kingdom has issued Mueller Co. with a “Certificate of Constasy of Performance” for Super Centurion® Fire Hydrant models A-421, A-423, A-433, and A-435. The certificate attests that Mueller designs, inspects, tests, and monitors the production in strict accordance with standard EN-14384, “Pillar Fire Hydrants”, and can apply the coveted “CE mark” to these model hydrants. In addition, CE certifications and drawings are available on our website at www.muellercompany.com

Mueller & Saint-Gobain Partner at Aquatech Amsterdam

Mueller helped distributor Saint-Gobain celebrate its 350th anniversary by jointly sponsoring a booth at Aquatech Amsterdam 2015. More than 18,000 international water technology professionals convened to network, exchange ideas and do business. The Mueller/Saint-Gobain booth attracted visitors who wanted to learn more about the company’s gate valves, pressure monitoring system, and leak detection technology. Check out the event video at: https://www.youtube.com/watch?v=_3yBbQ8g1S8

BEFCO Engineering Hosts Drought Solutions Seminar

Mueller now offers custom drought solutions seminars with the release of its Drought Handbook (www.droughtbook.com). Consulting engineering and surveying company BEFCO Engineering hosted the first such seminar at its headquarters in La Grange, Texas. Employees from BEFCO and nearby municipalities learned from representatives of Mueller Co. and affiliates about approaches and methods to help their water distribution clients conserve water and combat the effects of extreme drought. To schedule a custom seminar for your company, please visit www.droughtbook.com today.

Chattanooga Mayor Andy Burke Visits the Mueller Technology Center

On Tuesday, October 27, 2015, Chattanooga Mayor Andy Burke visited the Mueller Technology Center in Chattanooga. During his visit, Mayor Burke met our team, toured the testing laboratory, learned about the gate valve production process, and was shown our 3D scanning and data analysis process. The visit gave Mayor Burke and his staff a greater appreciation for Mueller Company's role as a leader in the water infrastructure industry and our commitment to research and development.

New Drought Solutions Videos Available

Leading water industry publisher *Water & Wastes Digest* produced three (3) videos that focus on Mueller's water conservation and drought solutions products.

- [Apple Valley Stops Water Leaks with Mueller® Pipe Repair Products](#)
- [Bozeman Controls Hydrant Vandalism with the Hydrant-Defender® System](#)
- [Birmingham Achieves Annual Savings with Hydro-Guard® technology](#)

These videos are available on our YouTube channel at <http://www.youtube.com/muellerco500>

Using 3D Printing as a Prototyping Tool

Mueller uses 3D printing as a prototyping tool during many of our product development and improvement projects. 3D printing is a process for making a physical object from a three-dimensional digital model, typically by laying down many successive thin layers of a material. A good example of 3D printing was during the development of the Jones® Triton® ductile iron wet barrel hydrant. Introduced to the market in June 2015, Mueller's Albertville, Alabama plant used 3D printing to produce prototypes of the new contemporary design, which features a contoured head and fluted spool, for review by and to obtain feedback from select customers. For more information about Triton, please visit www.joneswaterproducts.com.

Expanding Service Brass Product Line

Fittings 42%

To meet growing customer needs, our Decatur Plant added 116 new service brass parts in 2015. As shown in the image above, the additions included designing and manufacturing 67 valves and 49 fittings to fulfill orders. Mueller Co. has committed to expand its service brass product offering and customer service. Look for more additions coming soon! In the meantime, check out the handy cross-reference feature on the free Mueller App. Search for “Mueller Co” in the Apple App or Google Play stores or visit our website at:

<http://muellercompany.com/MobileLinks/>

Hydro-Guard® Redefined

HYDRO-GUARD™ The company is extending the brand “Hydro-Guard” to include all products and services used by utilities to flush and monitor water distribution networks. This includes devices and systems provided by Mueller Co. and its extensive distribution network that measure important water quality parameters such as chlorine residuals, pressure, temperature, pH, and more. Be on the lookout for new ads in water industry publications soon.

The Mueller Co. Vision

“To be a trusted provider of branded products and services known for superior quality, reliability and the lowest total cost of ownership that help our customers operate their businesses more efficiently and protect lives and property. We manage our business to realize leadership sales and value creation over the long term.”

- Greg Rogowski, President

Mueller Water Products Becomes Energy Star Partner

This partnership further demonstrates Mueller's commitment to environmental stewardship and lowering our energy costs. The Energy Star program was introduced by the EPA in 1992 as a voluntary program to reduce greenhouse gas emissions through energy efficiency.

People may be familiar with the program from household appliances, such as washing machines and refrigerators, many of which carry the Energy Star label. In addition to product certification, Energy Star also partners with commercial and industrial facilities to help them improve energy efficiencies in their buildings and manufacturing processes.

"We'll be able to network with other industry leaders and learn from their experiences how we can further reduce our energy usage and greenhouse gas emissions," said Aaron Croop, Mueller Water Products' Corporate Manager for Environmental Health & Safety.

Have a Product Development Idea?

Have an idea for a new product or service? See a gap in our offering? Submit your idea today! Simply visit our website, complete the form and we will be in touch: <http://www.muellercompany.com/products/request/>
