

Above box shown with optional lid ring and lid and is sectioned to illustrate valves and fittings.

The MUELLER / Hunt EZ-VAULT Meter Setters provide a means to quickly install a 1-1/2" or 2" meter. The EZ-VAULT permits cities and water companies to standardize larger meter sets increasing convenience and efficiency during construction. The factory pre-aligned setter is stabilized to prevent shifting during backfilling. This makes it easier and more efficient to install or change out meters at a later time. The EZ-VAULT Meter Setter eliminates on-site fabrication and construction, saving time, material and labor costs.

MUELLER / Hunt EZ-VAULT Meter Setters are shipped fully assembled, ready for meter installation. Their light weight saves shipping costs and makes installation a one man job in most cases. Every box is factory tested and has a 150 psig maximum working pressure rating.

The MUELLER / Hunt EZ-VAULT Meter Setter is available for 1-1/2" and 2" meters. A wide variety of end connections, control valves, box depths, lids and other options provide you with the meter set the way you want it. Due to the almost endless combination of features available, each box is custom built to your specifications. See page 8F.8 for ordering instructions.

Manufactured under one or more of the following: U.S. Patent No. 4,614,113; 4,813,281

MUELLER / Hunt EZ-VAULT Meter Setter Features

- ❑ Rigid .486 minimum wall PVC material holds shape and resists frost bridging
- ❑ Lightweight - can be handled by one man in most cases
- ❑ White interior aids visibility
