New products and developments from the Leading Supplier of Water Distribution Products

A2361 Series RW Valve product offering extended: Mueller®/USPVH™

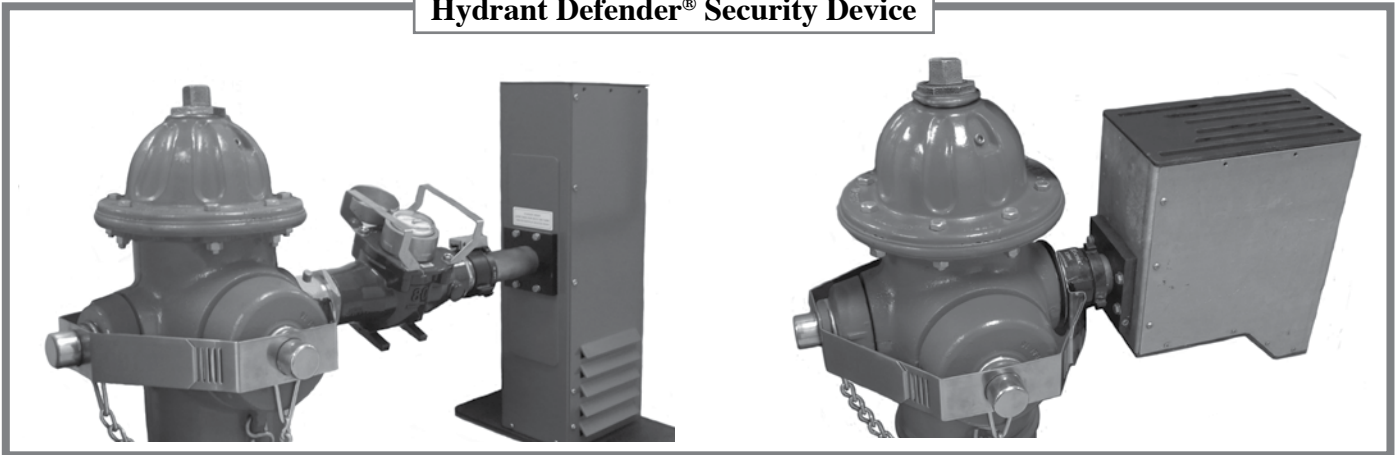

As the need for more water grows so does the size of our valve product offering. We have recently completed the roll out of our 54" resilient wedge gate valve. This valve offers the standard true 250 psig working pressure along with flanged and tapping end connections. Specify: a bevel or spur gearing along with the optional bypass valve.

Hydro-Guard® Products –

- HG-6 Basic Automatic Hydrant Flushing device for emergency and temporary installations.
- 8" or 10" diameter metal enclosure options for both the 1" and 2" sampling stations or other water quality applications.
- Hydrant Defender® Security Device for hydrant flushing devices, hydrant meters, or both.

Hydrant Defender® Security Device

Albertville Foundry Achieves OSHA VPP Star –

The 1st foundry to earn “Best of the Best in health and safety” nationally. Just 2000 workplaces out of more than 7 million eligible have earned OSHA’s Voluntary Protection Program (VPP) Star – the highest level. A huge accomplishment for a foundry! Congratulations team.

New Mueller Co. Web Site –

New web site up and running in Dec 2012. Features include:

- Much improved search functions for both site and for catalog, accessible from anywhere in the site. Search catalog or part numbers, and find drawings by finding product in catalog, or searching drawing number.
- Easier to navigate, clean up-dated graphics.
