

May 12, 2017

To: Water Distribution and Fire Protection Product Customers
Cc: Nick Peyton
From: Anton Nasledov
Subject: 2360 (Cast Iron) Model Discontinuation

To Whom It May Concern:

As of May, 2017 Mueller Co., Chattanooga, TN manufacturing facility had been fully converted to the Ductile Iron (DI) material on all products and size ranges. As a result, all of the Grey Iron (Cast Iron - CI) material product in the model 2360 had been phased out and discontinued, with the equivalent variety of offerings in the models 2361 and/or 2362 now available in the ductile iron. Literature and online catalog pages have been updated to reflect this change.

For any questions or further clarification please contact your local Mueller Office or Area/Regional Sales representative.
