

## **Mueller® Butterfly Valve Coatings**

**Standard:** 8 Mils nominal interior/exterior of NSF approved 2 part epoxy Ameron, Amercoat 370

**Note:** Above ground valves (those supplied with a handwheel, lever or actuator with position indicator), will have the O.D. coated with (8 mils) Ameron Amercoat 370 (color: Red) as standard, which serves as a suitable topcoat, or as a primer if additional painting is required.

**Option:** Holiday Free, Epoxy coat interior 16 mils dry, Film Thickness (DFT)
